OUR RANGE GOES FURTHER

INNOVATING FOR MORE THAN 150 YEARS

Lucas is a brand that's been synonymous with innovation across the automotive industry (among many others) for over 150 years.

From an initial five-person workshop in Birmingham, England in 1875, to a British manufacturing giant in the twentieth century, through to a globally recognised and revered leader in the automotive aftermarket today, Lucas is one of the world's longest continuously trading automotive brand.

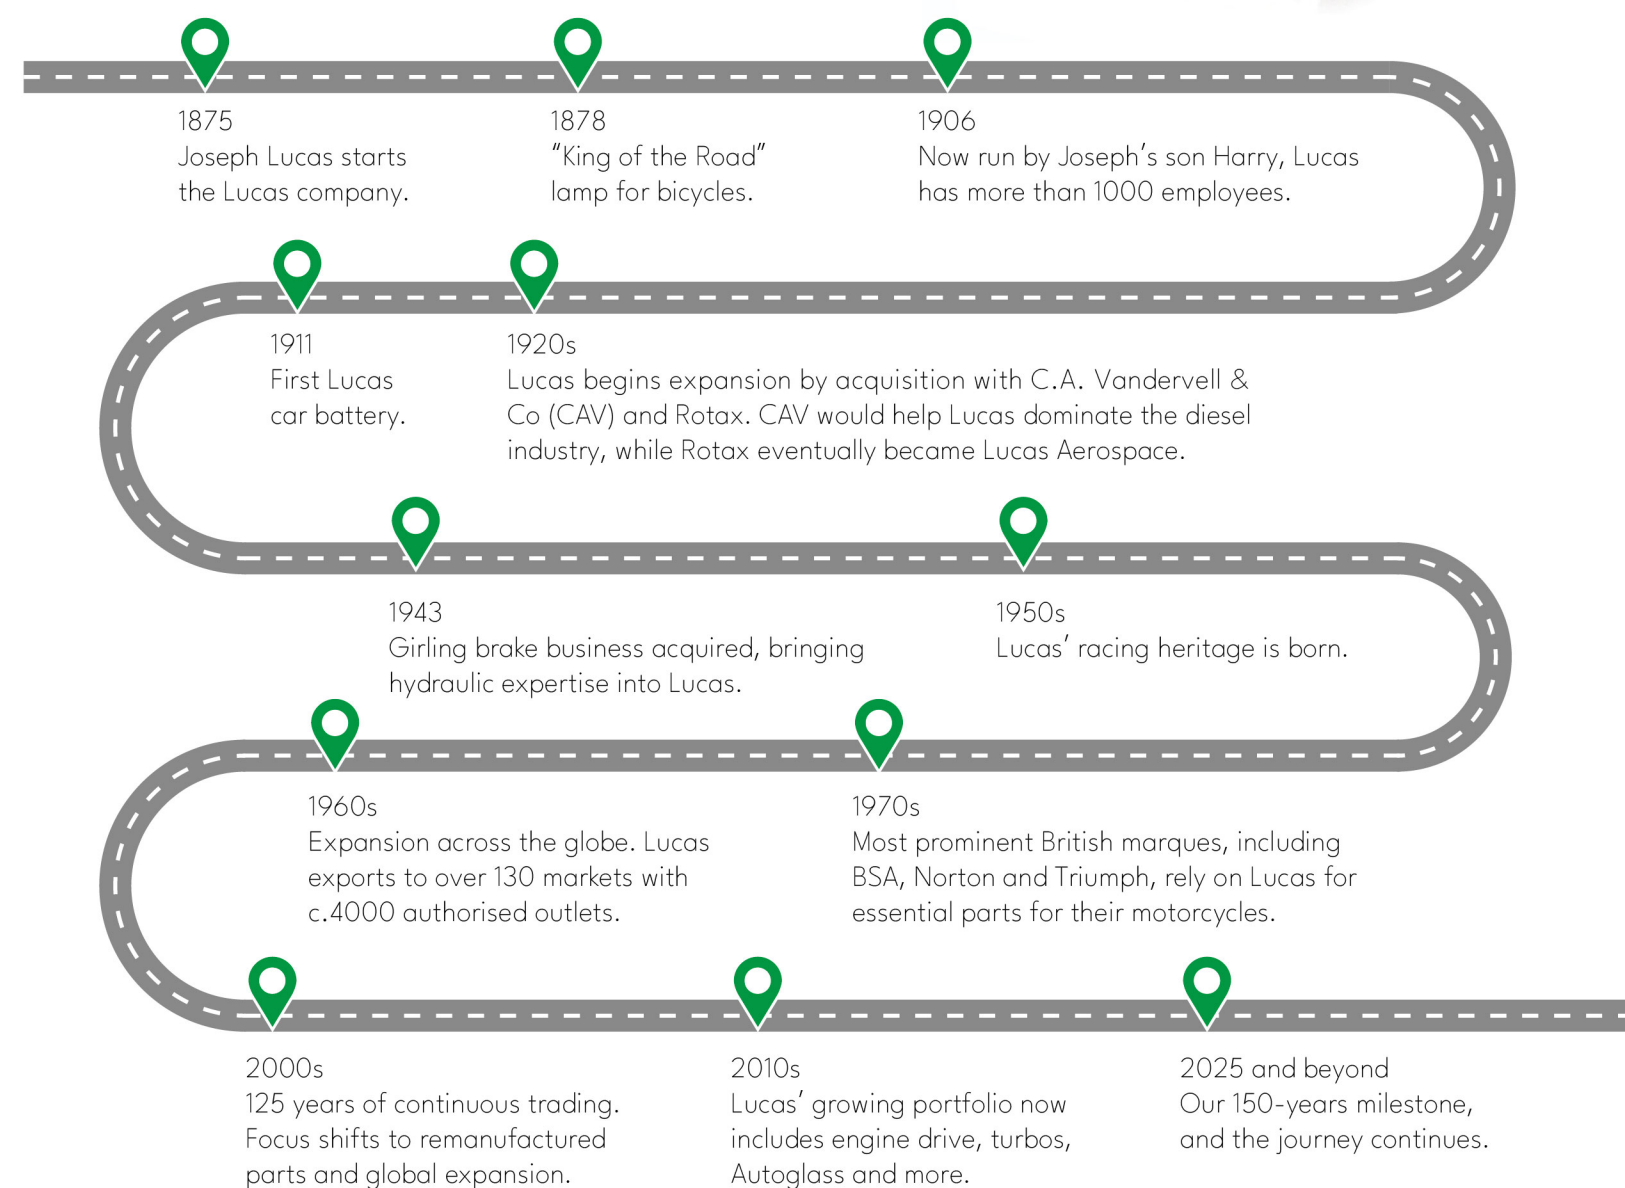

It's something we're proud of, because it shows that our commitment to exceptional durability and outstanding quality is valued by the millions of people who rely on our products every single day.

In 2025, we celebrated 150 years of success, yet this is just another magnificent milestone in a journey that's set to continue for many, many more. Ride with us, as we travel on.

AN ENVIABLE HERITAGE

The growth and evolution of Lucas has reached across three different centuries. As engineering has developed in all kinds of directions over that time, Lucas has consistently been at the leading edge.

Never a brand to sit back and relax, Lucas is always striving to bring benefits and advantages to its customers, from motorcycles to jet engines and everything in between.

BIKES ARE PART OF OUR DNA

Our two-wheeled journey can be traced right back to the beginnings of Lucas, with the development of the "King of the Road" lamp for the Penny Farthing, the original high-wheel bicycle.

for durability and reliability, something which continued as Lucas evolved with the market itself. As bicycles became motorcycles, Lucas came to market with a range of accessories (including oil, acetylene and electric lamps) to help these new enthusiasts keep on the road.

Some of the most prominent British marques of the 1970s, including BSA, Norton and Triumph, relied on Lucas for essential parts for their motorcycles. These included magnetos, dynamos, alternators, switches and other electrical equipment, as well as Girling braking systems.

Now the ride continues into China, with our specialist partner Guangzhou Zhicheng Import and Export Co. Ltd.

CONTINUING THE JOURNEY

Guangzhou Zhicheng Import and Export Co. Ltd. was established in 2020 in Baiyun District, Guangzhou and shares Lucas' commitment to exceptional durability and outstanding quality.

Already exporting to more than thirty countries and regions (including Vietnam, the Philippines, Indonesia, Malaysia, Thailand, Cambodia, Myanmar, Mexico, Brazil and France), our new partner will bring its experience and expertise of motorcycle-parts design and wholesale to new and exciting markets.

Its in-depth knowledge of the automotive industry as a whole includes specialist understanding of internal engine components, transmission systems, ignition and electrical systems and brake systems.

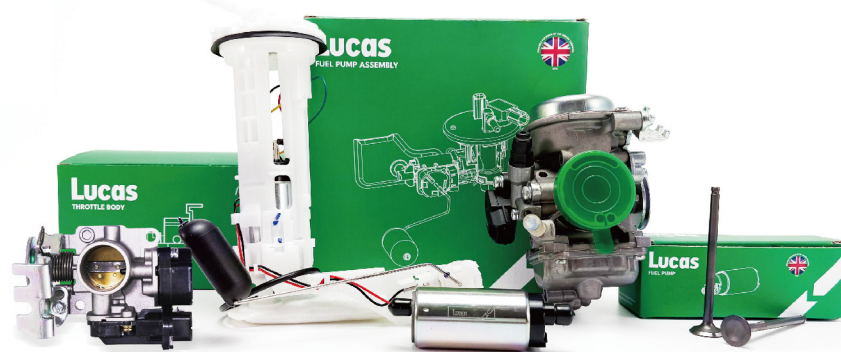

Our wide range of strong, robust and well-engineered quality products are available through them now.

ENGINE/FRAME AND SUSPENSION

Precision manufacturing,
ultimate reliability.

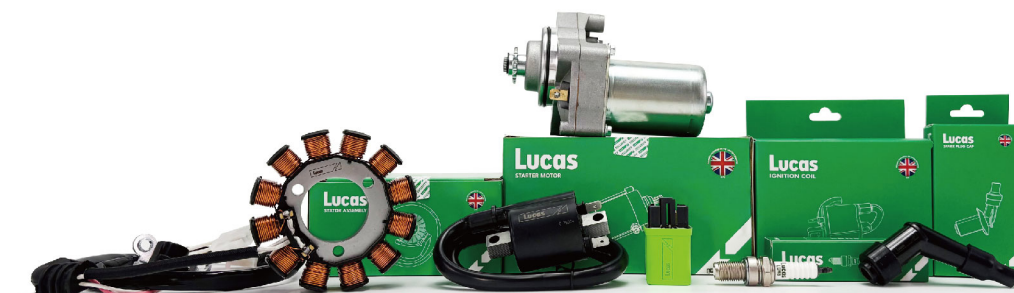

- Sensor
- Carburetor
- Fuel pump
- Camshaft
- Fuel Injector
- Cylinder Kit
- Piston Kit
- Valve
- Rocker Arm
- Crankshaft
- Throttle Body

IGNITION AND ELECTRICAL SYSTEM

Efficient Ignition, Enjoy Your Ride.

- Spark plug
- Coil
- Relay
- CDI
- Ignition coil
- Moto

TRANSMISSION SYSTEM

Efficient drive, fearless of challenges.

- Belt
- Chain
- Front/Rear Sprocket
- Ball Bearing
- CVT Pulley Set

ACCESSORIES AND EXTERIOR

Protecting your beloved motorcycle
with 'filter' technology.

- Air filter
- Oil filter
- Front Fork Assembly
- Rear Shock Absorber
- Stem Bearing
- Lamp Bulb
- Tire
- Hub
